📁 PROJECTS

FRIDAY — AI Personal Voice Assistant

Apr 2026

GitHub Repository →

- Developed a personal AI assistant capable of voice and text-based interaction.
- Implemented conversational AI features for answering queries and assisting with daily tasks.
- Added functionality for web search, weather/time queries, application and website launching, and reminders.
- Integrated system-level controls to interact with the Windows environment.

Tech: Python, AI/LLM APIs, Speech Recognition, Text-to-Speech, Windows Automation

Unreal Engine / Game Development Project

Jun 2026

GitHub Repository →

- Worked on game-development concepts using Unreal Engine 5.
- Explored gameplay systems, level design, and interactive game mechanics.
- Worked with Unreal Engine tools and development workflows.

Tech: Unreal Engine 5, C++, Blueprints

Developer Portfolio Website

Aug 2026

GitHub Repository →

- Designed and developed a personal developer portfolio website to showcase skills, projects, and achievements.
- Created a responsive and modern user interface for presenting professional information.
- Used Git and GitHub for project version control and development workflow.

Tech: HTML, CSS, JavaScript, Git, GitHub

TRAINING

Data Structure and Algorithms

Aug 2026 – Jan 2027

- Practiced core data structures including arrays, linked lists, stacks, queues, trees, and graphs.
- Implemented fundamental algorithms including searching, sorting, recursion, and problem-solving techniques.
- Strengthened programming and logical problem-solving skills through regular C++ practice.

Object - Oriented Programming in C++

Aug 2026 – Jan 2027

- Practiced classes, objects, constructors, access modifiers, functions, inheritance, and polymorphism.
- Developed small programs to apply OOP concepts and improve code organization.

☆ ACHIEVEMENTS & HIGHLIGHTS

- Developed Platform 13, an active project demonstrating practical software development and implementation skills.
- Worked on Fogwatch, an ongoing project currently paused.
- Explored AI assistant development through the planned Friday AI Assistant project.
- Gained hands-on experience with Unity 2D game development through an earlier project.
- Presented Hall Effect as part of academic work, demonstrating technical presentation and communication skills.
- Continuously developing programming skills in C++, Python, and Data Structures & Algorithms.

EDUCATION

Lovely Professional University

Since Aug 2025

Bachelor of Technology - Computer Science and Engineering(AI and ML)

Phagwara, Punjab • CGPA: 9.33

New Sun Rise Sr Sec School

2022 – 2024

Intermediate (Class XII)

Fatehabad, Haryana • 76.2%

New Sun Rise Sr Sec School

2021 – 2022

Matriculation (Class X)
Fatehabad, Haryana • 95.0%

 SKILLS

LANGUAGES

C/C++ Python SQL HTML CSS JavaScript

DATABASES

MySQL PL/SQL MongoDB

TOOLS / PLATFORMS

VSCode Git GitHub Unreal Engine 5 Unity Excel Power BI

CORE CONCEPTS

DSA Operating System OOPS DBMS Computer Networks

SOFT SKILLS

Problem Solving, Teamwork & Collaboration, Adaptability, Communication, Leadership, Quick Learning

 CERTIFICATES

Algo Arena 2.0 - Coding Competition

Weinnova8/TheEduCode • Apr 2026

Introduction to Cyber Security

Infosys • Mar 2026

CS107: C++ Programming

Saylor Academy • Jan 2026
